RE: Thomas J. Ritter, Jr.

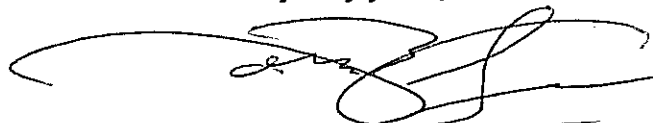

To Whom It May Concern:

Thomas J. Ritter, Jr., "Tom" as I know him, has been a friend as well as a colleague and collaborator with me in the cause for liberty for many years. Tom has accomplished himself as a beloved teacher and has served his country with distinction. He is an intellectual who knows how to think outside the box and to analytically examine concepts that are accepted without question by ordinary minds.

He has the ability to intellectually force one to think through and develop a rational basis for the position taken on an issue. He is committed to intellectual honesty and sound thinking.

I highly recommend Tom Ritter as a speaker, instructor or other participant in any public or private forum or instructional event on virtually any issue that is being discussed in the public square.

Very truly yours,

James N. Clymer
